- Rajveer was a friendly and good TA. He was always willing to assist students and encouraged questions or concerns. An issue I had with the
 class was for my discussion specifically he would go over material that was more advance and didn't correlate to the actual lectures and in
 doing so he mentioned that if we wanted to discuss homework then we would have to attend his other discussion sessions which were both
 time conflicts for me. Additionally, he did have one session to review homework in my actual discussion time but I wished he would have sent
 out slides or review material for the exam and homework. Overall, Rajveer was a pretty effective TA.
- He reviewed advanced topics that are not covered in the lecture during this discussion section. He tells students to go to other discussion sections for going over homework, however I am busy during those times.
